On May 23, 2006, the Court held a telephonic status conference with counsel regarding certain potential adjustments to the schedule relating to potential objections to the proposed class settlement in this matter. After hearing from counsel and after full consideration of the issues, the Court ruled as follows:

1. Southern California Edison Company ("Edison") shall have until May 30, 2006 to file any further Objection to the proposed settlement (and any issue that Edison might have raised by motion accompanying such objection shall instead be incorporated within that Objection).

1 2. Any response to Edison's supplemental Objection filing shall continue to be due on
2 June 5, 2006.

3 3. To the extent that new circumstances arise over the next week relating to the class
